Secretary-Treasurer's Report:

Ending Balance: February 28th. $12,997.51
$75 Collected March 12th

VE Liaison's Report:

Mike Smith AD0YM:

Two candidates requested testing opportunities since our last meeting. A Technician candidate requested a test on Saturday, 22nd February. This test date was cancelled at their request. Candidate expressed readiness concerns and asked for postponement. A second request was made for an Extra exam on Saturday, 7th March. Session was held, but candidate was unsuccessful. An exam session has been requested for Saturday, 14th March. Any current General license holders currently preparing for an upgrade should be aware of a new test question pool effective 1 July 2020. Brian Tordoff (KD0GRS) brought to my attention there were two potential license candidates from State of Missouri, Department of Health and Senior Services: Anna Long: new license candidate - Office of Emergency Coordination - Emergency Response Center [REDACTED] or [REDACTED] .

Jeremy Wilson (KD0GRR) currently a Technician but may be interested in an upgrade. Only contact

information available is through License Lookup, though may be a coworker of Anna's. I certainly can help with the license examination. Should there be a training outreach to these folks as well?
