VE Liaison's Report: **- Mike Smith**

There have been no requests, therefore no test sessions scheduled since our September meeting. Other news related to the topic ... ARRL VEC has expanded the number of versions of the exams. The new versions are for primary use as part of their effort to gather statistics on them through the rest of the year. The older versions can be used should the need arise due to a large test class. Same test question pool, so just something for our Volunteer Examiners to be aware of.
