Old Business

2 Meter Net Report: Mike Dolson, NØZH, reported a total of 63 check-ins for June.

Net Results:

June 19	KDØGRM	18
June 26	NØZH	14
July 3	NMØC	13
July 10	KDØMRJ	21

Upcoming Net Controllers:

July 17	KBØQFN
July 24	NNØJS
July 31	NØZH
Aug 7	KDØGRM

Discussion regarding autopatch and its use. It is seldom used. The phone line had been down for a time of unknown duration, but we continued to pay (auto-deduct) the phone bill. The service has been restored. A question was asked about why we have a phone line. One of the reasons is that it allows us to shut down the repeater remotely if that becomes necessary. Another question was asked about the amount of the phone bill which was for two months. Bob Heald, W0XII, explained that the phone bill is auto-deducted at the end of the month and it occasionally does not show on the bank statement until the following month.

2 Meter Report:

Jim Biggerstaff, NØTKN, working well.

Digipeater Report:

Jim Biggerstaff, NØTKN, working well.

Missouri Emergency Packet Network (MEPN):

Jim Biggerstaff, NØTKN, working properly. Jim has checked on the Show Me Intertie but has so far gotten no answers. One of the transmitters in the circuit is dead. We could hear them but they could not hear us. We have offered the loan of a replacement but have not gotten a reply.

Local Emergency Coordinator's Report:

Rich Kreiser, NØJBF: Kent Trimble, K9ZTV, is Chairman of the Board of the Heart of Missouri Red Cross. Installation of a 2 meter antenna has been under discussion for some time. It was installed at the Red Cross building last Tuesday (July 9th). It took two hours and several club members assisted. Several members also donated the hardware for the installation. There was an exercise this morning with several members participating. Further discussion about an existing HF antenna. Mike Dolson, NØZH, will take it home and check to make sure it is still usable.

District Emergency Coordinator's Report:

Joe Betros, KBØQHZ, no report

VE Liaison's Report:

Nancie McAnagh, NMØC, we have one for testing after the meeting.

CW Class:

Kent Trimble, K9ZTV, Night of Nights is scheduled for tomorrow night (July 12th). This is a commemorative event sponsored by the Maritime Radio Historical Society and is held on July 12th every year for the shut down of facilities at Point Reyes, California. Was in operation for many decades monitoring 500 kilocycles which is the maritime calling frequency. The event runs from 5pm to 2am Central Time. Their call sign is K6KPH. All are encouraged to visit their website.

Training Committee:

Mike Thayer, KMØS, General Class has been completed. We did not have the success rate we have had in the past. Based on results and comments, we will likely return to a lecture style of instruction rather than just covering the questions as we did in this class. A Technician Class will likely be held this fall. The date will be announced later.

Club Jackets / Shirts / Patches:

The jackets and shirts have arrived and were distributed. Three members who purchased items were not in attendance.

Mid-MO Emergency Radio Service:

Rich Kreiser, NØJBF, nothing to report. Jerry Sill, NNØJS, will re-register by the end of August.

Field Day 2013:

Mike Dolson, NØZH, thanked all who participated to make Field Day a success. All agreed that setting up the antennas on Friday night is a worthwhile practice. Preliminary results indicate a total of 4,394 points with some adjustment coming due to GOTA totals not yet being included. This will likely result in an additional 20 points.

New Business:

Kent Trimble, K9ZTV: it is customary that at the first meeting after the death of a member, we have a moment of silence in their memory. Roger Conway passed away a couple of weeks ago. Roger's family consists only of a brother and sister. Roger and brother had been estranged for several years. His sister asked that his possessions be distributed in accordance with his friend Tony's wishes. Roger had a se cW WF- p
