Old Business

2 Meter Net Report: Mike Dolson, NØZH, reported a total of 79 check-ins for May.

Net Results:

May 15	KDØQFN	___
May 22	NØJBF	___
May 29	KDØGRM	___
June 5	NMØC	___
June 12	KDØQFN	___

Upcoming Net Controllers:

June 19	NMØC
June 26	NØZH
July 3	KDØGRM
July 10	KDØMRJ

2 Meter Report:

Jim Biggerstaff, NØTKN, working well but still need to do some tuning

Digipeater Report:

Jim Biggerstaff, NØTKN, haven't checked.

Missouri Emergency Packet Network (MEPN):

Jim Biggerstaff, NØTKN, the Intertie failed in a recent test – St. Louis could not hear us. Turns out the High Hill radio is dead and has been removed. It was installed as a temporary six years ago and needs to be replaced with commercial radios. Jim will follow up on this.

Local Emergency Coordinator's Report:

Rich Kreiser, NØJBF, no report

District Emergency Coordinator's Report:

Joe Betros, KBØQHZ, no report

VE Liaison's Report:

Nancie McAnagh, NMØC, testing next Monday (June 17th) for General Class students and possibly two additional for Technician.

CW Class:

Kent Trimble, K9ZTV, had some "old-timers" in attendance last week. Bill Gerth, W4RK, will conduct the class next Saturday (June 15th) as I will not be available. Currently, there is no Beginning Class. No classes will meet on Field Day Saturday.

Training Committee:

Mike Thayer, KMØS, still have about a half dozen students in the class, several have already passed the General test.

Club Jackets / Shirts / Patches:

The jackets and shirts have arrived and were distributed. Three members who purchased items were not in attendance.

Mid-MO Emergency Radio Service:

Rich Kreiser, NØJBF, nothing to report.

Field Day 2013:

Mike Dolson, NØZH, Jerri Hammond will host the pre-event meeting next Thursday (June 20th). Extensive discussion followed regarding details, arrangements, assignments, rule changes, etc. Couple of changes: we are going to set up a MESH network for logging, and antennas can (and will be) set up on Friday evening.

SOTA:

Bill Gerth, W4RK, no report

New Business:

Kent Trimble, K9ZTV: I got a call from Bill Hudson – the Linn repeater (145.390, 127.3, negative) is being activated on Skywarn, which did not get a lot of use during the last storm. Weather service is

very interested in hail size. Linn net is Tuesday at 8:30 p.m., Skywarn is same night at 8:00 p.m. Roger Conway, KDØFAS , has been diagnosed with cancer and it is fairly advanced. (*Roger passed away June 25th.*) Ken Barnes came by breakfast a few weeks ago and asked for CW operators to assist with Scouts in an annual event. Several members assisted and about 180 Cubs participated.

Announcements:

Mitch Odneal, NWØM, reporting on the Dayton Hamvention experience. He went over a day early and got to meet a lot of testers at the hotel. Mitch went to “Contest University” on Thursday – there were different sessions all day long about many aspects of operating, not just contesting. Actual Hamvention started on Friday with the swapmeet starting an hour early at Hare Arena. Luso Tower Company had an exhibit – a base seven feet across requiring 52 yards of concrete. The tower weighs 50 tons and costs \$56,000.00 plus shipping.

The meeting was adjourned at 8:24 p.m.

Compiled and Submitted by Bob Heald, WØX I I
