

**Minutes of the
Mid-MO Amateur Radio Club, Inc.
Jefferson City, MO**

Meeting of: October 10, 2024

Presentation:

- Tim did a presentation on the new FilterMax IV Bandpass Filters that were purchased recently by the club and first used during Field Day. Tim explained how the filters worked and what effects would exist between two radios without the filters. Kent added that the filters were purchased to protect the personally owned radios that the club uses.
- The **W00** operation was discussed. Operators should bring some snacks to the event. Kent to send out directions on Groups I/O. Kent also suggested having the directions removed from the club website. It was noted that no Silent Keys existed since the last W00 operation. The W00 QSL card traditionally shows the callsigns of those Silent Keys from the past year.

Call to order: Tim Raymer, President – N0UI—7:00pm

Members in attendance:

- In Person

Tim Raymer	N0UI
Richard Glassner	N0EAX

Dues due in June

VE Liaison's Report: Mike Smith - AD0YM

- Last month's test session included Craig Rantz passing his Technician test. His assigned call is KF0RQI. No further tests have been scheduled.
- Mike recommended that all VE's in the club check their ARRL VE Status as Mike could not find all the usual club VE's as being listed with an active status. The ARRL VE webpage shows how to check and/or renew your status. Bryan, W0ESE, did call the ARRL and had his VE status reverified. Jim, N0LBY, indicated that on the Wiki page on our Groups I/O page contains VE information.

2 Meter Net Report: Steve Hick – WW0G**Upcoming Net Controllers**

- October 16
- October 23
- October 30
- November 6 Brian, KD0GRS
- November 13

Net Control signup Sheet:

K0ETY Repeater Report: Jim Biggerstaff – N0TKN

- Jim reported that the repeater is working good. 1004 PTT's this past month.

Missouri Emergency Packet Network (MEPN): 145.070 MHz:

- Jim reported MEPN working good. He connected out to Americus and Columbia. The network goes no further East than Americus. Jim noted that he had received a packet message from a ham in Moberly through MEPN. He also noted that the network is not used very often but is an available digital link (i.e. digipeater) available to all as well as a Winlink node.

CW Class: Kent Trimble – K9ZTV

- Kent thanked Bryan, W0ESE, for filling in this past month during Kent and Bill, W4RK's absence. Bryan indicated that things went well during the class.
- Kent described a recent QSO with a ham in Illinois that involved white shirts and ties, funeral homes, and President George Bush. Kent noted that you never know what a QSO conversation might end up discussing. He noted that in SOTA and POTA "conversations", for example, the minimal information shared does not give the operators a chance to get to know each other.

Training Committee: Art Langston –KD0GY

- No report.

Emergency Communications: JD Simmons—WA0BER

- No report.

Skywarn: Dewayne Carver-WD0HXX

- Dewayne indicated that things were quiet and nothing to report.

Old Business:

- No Old Business

New Business:

- Mike, N0ESE, reported that Karl Schulte, WA2KBZ, has some health issues and is in recovery. A recent hurricane has taken down one of Karl's antennas, created flooding, other damage around his house, and loss of power. Karl is using batteries to recharge his radio and cell phone. He wanted to send his regards to all of the club members. For many years Karl was an active member of MMARC and had moved to Florida a couple of years ago.
- Christmas Party- Kent and Bryan, W0ESE, will call Madison Café after the meeting to see if space is available in December. Kent reminded everyone that reservations will need to be made by club members prior to the cut off date.
- Art, KD0GY, needs help with an antenna installation. His email to the club members gives the details of what is needed. Volunteers should contact Art.
- It was reported that a 001 Pre-class is now required prior to signing up to take FEMA Emergency Services 100 and 700 classes. A check on the FEMA website indicated that the ICS 100 and 700 classes are prerequisites for the Emergency Communications Class EC-001.
- It was reported that the club website certificate was not up to date. Tim indicated that this would be taken care of.
- Jim, N0LBY indicated that at his Osage County location he has a barn full of HF and VHF antennas that newer hams or anyone else may want to look at. There is no cost for these antennas as long as they will get installed and used. Thanks Jim!

Announcements:
